

IOWA STATE UNIVERSITY  
OF SCIENCE AND TECHNOLOGY

Office of the President  
1750 Beardshear Hall  
Ames, Iowa 50011-2035  
515 294-2042

November 1, 2006

The Honorable Tom Coburn, MD  
United States Senator  
439 Hart Senate Building  
Washington, DC 20510-3604

Dear Senator Coburn:

We are happy to provide you with the information you requested about federal appropriations that have been provided to Iowa State University. We have been working diligently since we received your request to gather the information in a comprehensive and timely manner.

I want to thank you for making this request, because compiling this information has proved very useful to the university. We have added this information to our own on-campus process of evaluation and review of federally appropriated projects. To that end, we took great care to make sure that we collected and reviewed all relevant information for our own purposes as well as your request. We regularly go to great lengths to assure the merit and value all university research, but I am also aware of the importance of additional informed review.

Following this letter is a compilation of the congressionally directed funding that Iowa State University has received from FY2000 through FY2006. Within this delivery, you will find detailed summaries on each specific project, as well as more than 540 published reports, studies and other materials that had been produced throughout the requested time frame. We are very proud of the research that takes place on our campus, and we believe strongly that each of these projects has contributed to the advancement of knowledge and our society.

We value your leadership and efforts in the Senate, and we appreciate the opportunity to provide this detailed response to your request. Please let me know if you have any questions or require other information.

Sincerely,

Gregory L. Geoffroy  
President
